

WARREN VILLAGE

Transforming Parents' Lives. Improving Children's Futures.

LEARNING CENTER

The Warren Village Early Learning Center provides high-quality, on-site developmental care and licensed early childhood education for more than 100 children ages 6 weeks to 10 years. It is both an independent early education and child care center and part of the Warren Village self-sufficiency program, which means it is open to both residents of our housing complex, as well as members of the community. The multicultural curriculum is designed to promote healthy physical, social, intellectual, and emotional development, as well as creativity and critical thinking skills.

The Learning Center maintains a Level 4 program quality rating from Colorado Shines, a statewide non-profit organization working with child care providers, parents, and communities setting standards and improving the quality of early childhood education. Our partnership with the Mental Health Center of Denver provides an on-site mental health clinician who supports staff, families, and children by providing problem-solving and wellness skills to help alleviate behavioral and emotional concerns.

We accept TANF, CCAP payments from Denver and Arapahoe Counties, as well as funding from The Colorado Preschool Program (CPP) and The Denver Preschool Program (DPP). Private pay options are also available. Tuition ranges from \$1,900 - \$2,100 a month. We also have two Head Start-funded classrooms.

Enrollment options include full-time (all five days, Monday-Friday) or part-time for children under age two. Part-time options are three days a week (M/W/F) or two days a week (T/Th). Enrolled children utilizing CCAP funding must attend five hours each day.

Our School-Age Program offers after-school care with full-time care in the summer and on school breaks. School-age children must attend either Teller Elementary or Dora Moore Elementary to be eligible for care.

Children are served a healthy breakfast, lunch, and afternoon snack prepared by our on-site chef. These meals provide for 2/3 of a child's daily nutritional requirements.

The Learning Center maintains low teacher-to-student ratio that fosters more one-on-one interaction and individualized instruction. All Learning Center classrooms have two teachers and up to three additional teaching aids.

Strict adherence to COVID-19 safety protocols based on guidance from the CDC and the DHS - CO Office of Early Childhood, including but not limited to:

- Daily temperature checks/health screening for both staff and children
- Masks worn for all staff and children older than 3 years old
- Parents are not allowed in building; drop off and pick up happen at front entrance
- Social distancing
- Thorough hand washing and sanitizing/disinfecting
- No combining of cohorts/groups at any point during the day
- Limited visitors
